**STEKOMPREENURSHIP
INTERNATIONAL
COMPETITION
#SIC2023**

Term Of Reference

Background

At present, entrepreneurship is likely the most challenging but powerful tool to make you successful in life and in career. According to Forbes, fifty percent of the working population will be business owners and freelancers. Today, more than ever, is the perfect moment to empower people with entrepreneurial skills.

Unfortunately, Indonesia has a low entrepreneurship rate compared to those of its neighbor countries in South East Asia. With an entrepreneurship rate of only 3,47%, Indonesia is behind Malaysia and Thailand. Even though some unicorns are well established and grown, practical actions are still needed to boost entrepreneurship in Indonesia, including in the universities.

There are many ways to incorporate entrepreneurship in universities, from making entrepreneurship a mandatory subject, creating an on-campus incubator to encourage students to develop their business globally, to entrepreneurship competition among students and faculty.

STEKOM University is organizing the annual international student entrepreneurial competition named ***“Stekompreneurship International Competition #SIC2023”***. Formerly named Idea to Business (I2B) International Competition, it offers a comprehensive learning of entrepreneurial skills from classroom lecturer and practical mentor ship to translating ideas into actual business proposals.

The Competition

What is it?

“Stekompreneurship International Competition #SIC2023” or “the Competition” or “the Event” is essentially a capacity building program with a practice area for pitching business ideas to investors before going into the real world. In this competition, the participants will engage in an entrepreneurship learning series and finally develop a business idea.

Initially, the participants will enroll in five entrepreneurship online masterclasses where they will learn all things about turning an idea into a business. Then, the participants will form a group of three to collaborate in developing an idea into a business model, framework, and a plan. Lastly, all participants will be challenged to pitch the idea to the judges, who will assess and value their business concept based on certain criteria. The best wins and get the chance to present their ideas to the STEKOM University Network.

When is it?

The competition will be held online on February 06 - 23, 2023, including one week for pitching.

Who are the participants?

All students from STEKOM University and its partner universities (both in Indonesia and abroad) are allowed to participate.

To become a partner university, there must be an Implementing Agreement with STEKOM University legally signed by the chairs of departments of both universities.

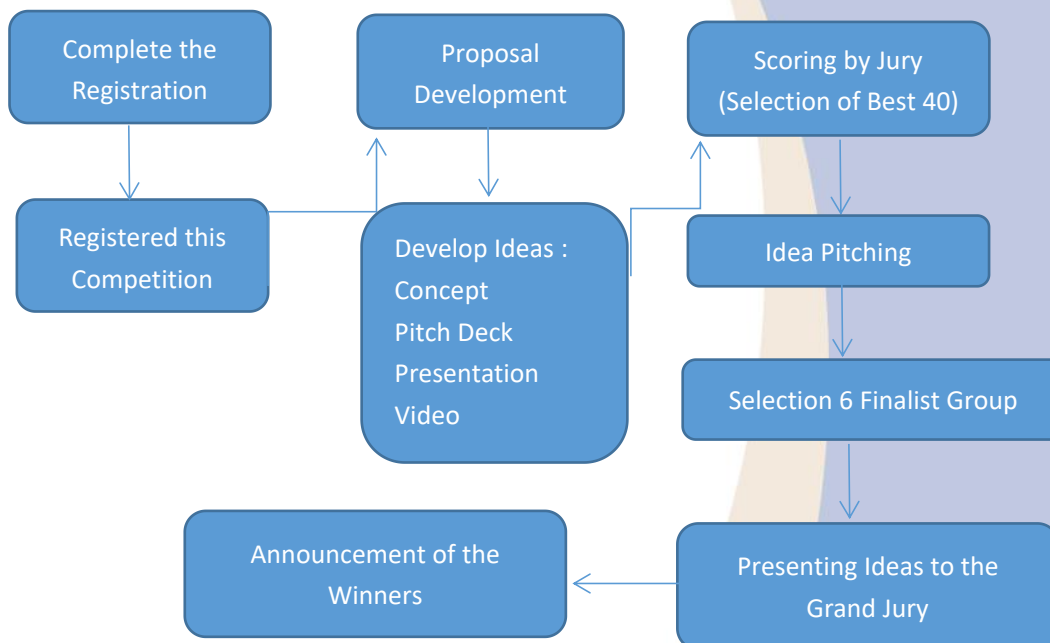

What are the benefits?

In addition to getting the certificate of course completion, the participants will have the following opportunities :

1. Win the competition prizes.
2. Build entrepreneurship network among the participants.
3. Enhance the personality, emotional quality, and communication skills.
4. Learn the best practical knowledge and skills in developing an idea into business from experienced instructors, mentors, and business owners.

The Scene

The following is the competition's activity diagram:

The participants shall complete the registration form. They shall develop a business idea into a business concept, create a pitch deck, and a video presentation.

All outputs from the groups among the participants will be evaluated and ranked following certain criteria by the jury. Finalists will be selected and they will be eligible to pitch their business ideas in the grand finale. The finalists' business ideas, presentation performance and pitch deck material will be evaluated by the grand jury.

How do I register?

The participants must register online via the bit.ly/registration_sic2023 and Free Registration

What are the requirements?

To join the Competition, the participants must meet the following requirements:

1. Active students from STEKOM University or its partner universities in Indonesia abroad
2. Second year onward
3. Register in a group of 3 (three) members or individual (the committee will assign to a group)

Who are the judges?

To ensure its integrity and impartially in the evaluation of business design, the **“Stekompneurship International Competition #SIC2023”** will invite business practitioners and experts as well as prominent people in entrepreneurship education as the jury and grand jury, from :

1. STEKOM University, Indonesia.
2. STEKOM University Network
